

Our affectionate greetings to you all,

Fulford has a new toy !

In a recent Residents' Meeting it was decided to have Grace at EVERY meal. I was elected to do so. Consequently, three times a day, the Residents are not only expressing their thankfulness for the abundance of God's goodness for all that transpires here in the many, many ways but they hear what day it is, the weather conditions as well as the name of the film to be played that night.

However, with our new "toy," complaints arose expressing the fact that I could not be heard. Nearby one of our dear pantry workers, Roxanne #2, quietly bought a microphone and donated it to Fulford. What a joy ! Since its arrival, we have enjoyed a lot of fun TESTING wherein everyone has joined in, having their say. Now all can participate in hearing.

Just this noon, one of our wonderful chefs, Analen, had such fun hearing her voice as she announced the luncheon menu, which I may add, was superbly delicious (as all meals are at Fulford) and nutritious.

As the expression goes, there is never a dull moment with many "fun" moments.

Mary Ramsay,
Resident.
